

Veterinary Suture Specialists

# Animus® Nylomide

# Animus® NyloBlue

**Nylomide – non-absorbable braided sterile surgical suture.**

**NyloBlue – non-absorbable monofilament sterile surgical suture.**

## INDICATIONS

Nylon sutures are indicated for use in general soft tissue approximation and/or ligation, including use in cardiovascular, ophthalmic and neurological surgery.

## CONTRAINDICATIONS

Due to the gradual loss of tensile strength that may occur over prolonged periods of in vivo, nylon sutures should not be used where permanent retention of tensile strength is required.

- Nylomide / NyloBlue should be stored sealed until ready for use.
- The product should be stored at room temperature in a dry environment.
